

CONSTRUCTION SITE TOILET

www.ptl.uk.com

THE GO TO STANDALONE CHEMICAL TOILET SUITABLE FOR USE ON BUILDING SITES.

The toilet can be supplied with a hasp and staple for locking from the outside for security purposes. The Mains portable toilet can be quickly and easily connected to the sewage system, and offers a professional, alternative solution for all toilet hirers making sure that your toilet users really feel at home! it is compliant with HSE requirements.

There are two versions of the toilet tank. The standard tank has a toilet bowl with a living hinge so that you cannot see inside the tank and it has an extra-large capacity of 280 litres. The second version has a lift-up lid for easier, more thorough cleaning and it has a capacity of 200 litres. It is fully self-contained and can be situated wherever you can get a service vehicle.

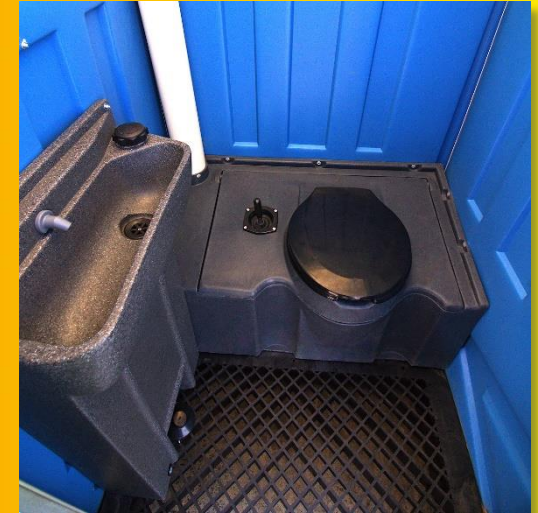

Why choose Construction Site Toilet?

- ▲ The robust and simple design is capable of withstanding heavy use on any site
- ▲ Heavy-duty plastic hinges prevent warping and rusting
- ▲ The skid is designed for strength, with a slip-resistant surface
- ▲ HSE compliant
- ▲ Air-vents pull clean air from bottom to top for a fresher toilet
- ▲ Two roll toilet paper dispenser requires less maintenance and there are no wasted rolls
- ▲ The pyramid sump provides more coverage but uses less chemicals & water
- ▲ Can be situated wherever you can get a service vehicle
- ▲ Capacity for 7 people onsite based on 40 hour working week
