

ELECTRIC SHOWERS

www.ptl.uk.com

A FOUR PLASTIC SHOWER UNITS ON A POD FRAME FOR CONSTRUCTION SITES

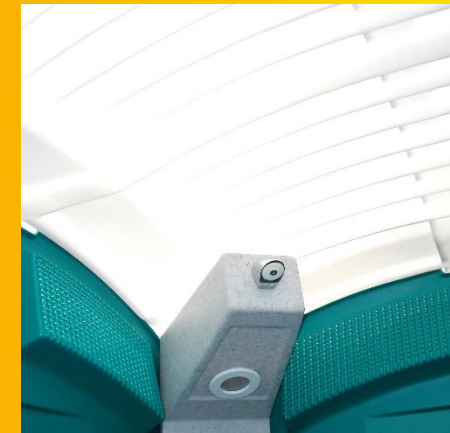

The water heater stores 15 litres of hot water and has a 3000w element for quick reheating and frequent use.

Four portable showers can be mounted onto a pod frame, which secures all the units together for easy handling, sitting, installation and transportation. The pod frame needs to be loaded and unloaded with a forklift.

Grey-waste water should run into a soak away or mains drain or be pumped away.

Why choose Electric Showers?

- ▲ The robust and simple design is capable of withstanding heavy use
- ▲ Vandal-proof shower head
- ▲ Energy efficient water control system
- ▲ The nonslip antibacterial shower mat is removable for easy cleaning
- ▲ Heavy-duty plastic hinges prevent warping and rusting
- ▲ No gas is required to run this unit
- ▲ Available as single units or four showers can be mounted onto a pod frame
- ▲ 12v shower light
- ▲ The shower temperature is pre-set at 41°C for showering in comfort
