

ÜBER LOOS

www.ptl.uk.com

A THREE BAY FRESH WATER VACUUM UNIT THAT USES ONLY 450ML OF WATER PER FLUSH

A unique, 3 bay vacuum powered modular loo unit. This needs to be installed under cover, within a structure, but performs exceptionally well at events where water and power are on hand.

It's popped up at long term Christmas installations in addition to some of the largest concerts in the UK in their VIP areas.

Popular for more upmarket events. Ideal for hospitality and backstage at festivals, no chemicals required so limited odour.
