

URINALS

Portable Toilets Limited

PLASTIC SOLUTION THAT REDUCES QUEUES AND IT'S QUICK AND HIGENIC

A very versatile 4 bay urinal plastic unit. Quick and hygienic option (compared to the alternatives of not having them!) We suggest they can be screened using Heras or other fencing if being used with crowds who may be sensitive to 'what can be seen'.

These units have been used at many major events including 'T' in the Park, Fleadh, Princes Trust, Virgin Concerts and Glastonbury.

Why choose Urinals?

- ▲ Ideal for concerts, festivals or sports events
- ▲ Large 150 gallon capacity
- ▲ Lasts up to 10 hours without emptying for 2000 people, continuous use
- ▲ Makes for a much greater throughput of users
- ▲ Same footprint as a portable toilet
- ▲ Equivalent to 2.4 metres of channel urinal
- ▲ The PQ Buster is equivalent to 2.4 metres of urinal channel and it has a 660 litre capacity.
- ▲ It can take up to 2000 visits, roughly 8 – 10 hours of continuous use, without the need for emptying.
